These terms and conditions may be changed or erased at the discretion of the Plaston Group at any time and without notice.

I. General information on data processing

1. Scope of the processing of personal data

In principle, we process your personal data only for those purposes for which this data has been given to us. These usually relate to the conclusion and the transaction of contracts. Furthermore, we process your data for purposes in which we have a legitimate interest, such as for the further development of our offers, services, websites, apps and other platforms where you are active, for advertising and marketing and for the testing and optimization of needs analysis procedures. As a rule, the processing of your data takes place after receiving your consent. An exception applies in such cases where prior obtainment of consent is not possible due to valid reasons and the processing of the data is permitted by legal regulations, such as for the fulfillment of a contractual or legal obligation.

2. Legal basis for processing personal data

Your personal data is processed on the following foundations:

- Based on your consent for one or more purposes (Art. 6)
- For the fulfillment of a contract of which you are a signatory party, or for the implementation of pre-contractual measures;
- For the fulfillment of a legal obligation that our company is subject to;
- If processing is required for either your vital interests or those of another natural person;
- For the protection of a legitimate interest of our company or a third party, provided that your interests, fundamental rights and fundamental freedoms do not outweigh our interests.

3. Data security

We take appropriate technical and organizational security precautions to protect your personal data against unauthorized access and misuse, such as IT and network security solutions, pseudonymization, access controls, issuing instructions, training employees as well as using state-of-the-art standard encryption technology for the transmission of data.

4. Data erasure and duration of storage

Wherever possible, your personal data is erased or anonymized once the purpose of its processing has been fulfilled or it is no longer required. However, the storage of your data beyond this period may be required if stipulated by legal retention and documentation obligations, or for the purposes of evidence or documentation in the event that claims are made against our company, or if required due to legitimate business interests.
